- Why Miria?

# Miria Overview

- 25-year old company, IBM Gold Business Partner and IBM certified Digital Business Automation (DBA) Expert
- Transforms high volume, document intensive business processes through automation
- Cloud-based solution built on IBM's DBA stack
- Specialize in accounts payable automation for organizations that process large volumes of invoices
- Used by some of the largest companies across the globe

**Expert**

Digital Business Automation

---

# Miria's Solution Focus

Automating document-intensive business processes which are manual or semi-manual and include repetitive human tasks

**Automated Accounts Payable**  
**Integrated Payments**  
**Payment Optimization**

**Digital Transformation Initiatives**

- e.g. Proof of delivery, receipt of goods, mortgage loan applications

Active Mailroom

Active AP

Active Pay

Active Mailroom

# Robust and Flexible AP Automation

- Provides extensive functionality for automating financial transactions and managing suppliers
- A la carte options allow you to add functionality as needed

Active Mailroom

Active AP

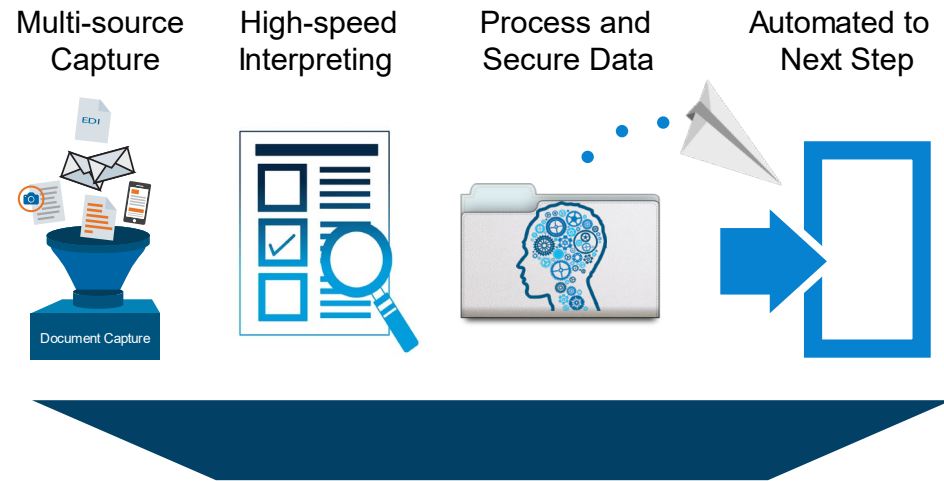

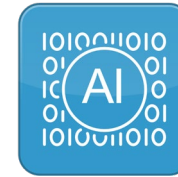

Active Pay

## Add-on Apps

- Expense Management
- Requisition Management
- Use Tax Management
- Document Workflow
- Journal Entry Management
- Advanced Search
- Supplier Portal
- Incident Management
- IBM Navigator
- Reporting & Analytics
- Vendor Management
- Case Management

# Active Mailroom

- The foundation for automating document intensive business processes
- Enhanced Artificial Intelligence minimizes the amount of manual data input and human processing
- Should exceptions occur, as a service, Miria handles exceptions so you don't have to, "teaching" Active Mailroom how to address them in the future

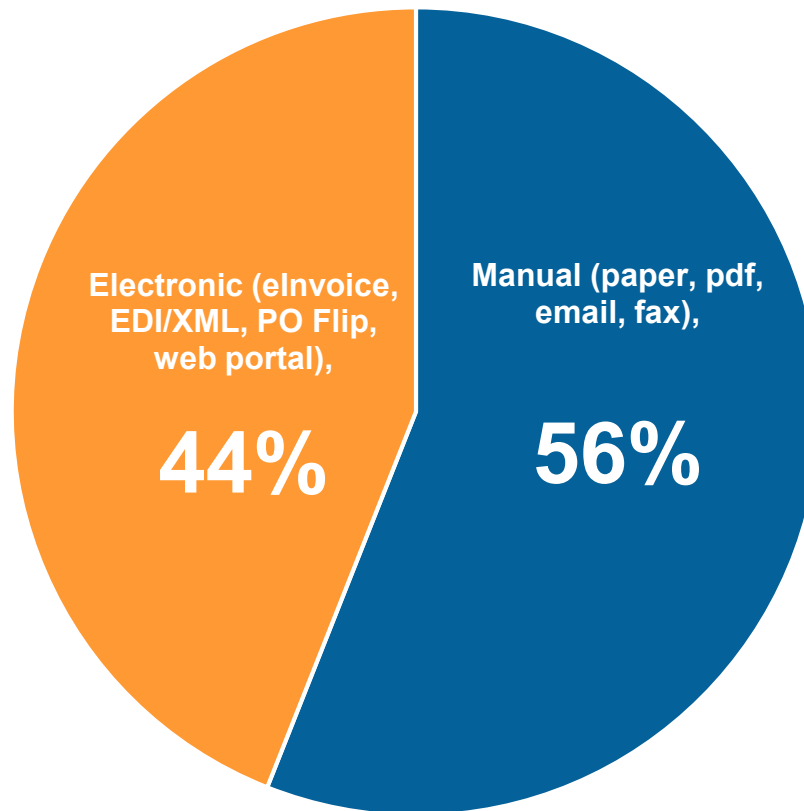

## Enhanced Artificial Intelligence

- Advanced OCR and document classification
- Captures documents from multiple sources and formats
- Automation through a combination of machine learning, structured rules, artificial intelligence, robotic process automation and exception management

# Business Case for AP Automation

- Reduction in cost to process invoices alone will justify investment in Automation

Industry Metric	Industry Average	Best in Class via Automation
<b>Cost to process an invoice</b>	<b>\$19</b>	<b>&lt; \$2</b>
# of invoices per processor	1500	4000+
Time to receive, approve, schedule to pay invoice	10 days	3 days
# of invoices received via paper	80%	33%
Invoice processing error rate	6%	1%
Invoices received with errors	14%	7%
